DETAILED ACTION

This office action is in response to applicants' communication filed on 8/31/09.

Original claims 19-44 and newly added claims 45-49 are pending in this application.

Claims 21-40, 43, 44 and 45 are withdrawn from the consideration being drawn to the non elected subject matter.

Rejection of claims 19-20 and 40-41 under obvious type double patenting over US 6,653,309 is hereby withdrawn, subsequent to applicants' submission of acceptable Terminal Disclaimer.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein

were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

4. Claims 19-20 and 40-41 are again rejected under 35 U.S.C. 103(a) as being unpatentable over Nishino et al(US 6,071,968) for the reasons of record.

Likewise, newly added claims 46-49 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nishino et al(US 6,071,968) for the same reasons as applied to claims 19-20 and 40-41 in the office action of 3/26/09.

Applicants' arguments were fully considered and were not found convincing. Applicants argue that the reference has amino in the para position as against no amino substituent in the para position in herein. Nonetheless, the positional isomers are prima facie obvious as a whole, absent evidence to the contrary, especially when R8 and R10 can be amino in herein. In re Jones, 162 F. 2d 638, 74 USPQ 152; In re Mehta, 146 USPQ 284; In re Kilsheimer and Haynes, 146 USPQ 491.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
